

Company : Techolution India Pvt. Ltd.
Company Name : Techolution India Pvt. Ltd.
Nature Of Business : IT Service
Designation : Computer Vision Intern
Tentative Job Location : Hyderabad

This is an open invitation for India's best in class AI Product Engineering to join the disruptive technology and thought leader in the Facial Recognition. If you live & breath engineering by solving not only engineering problems but are passionate about building state of the art products that help a billion users to evolutionize the human experience with locks and doors by joining the world class product team, then welcome to the Techolution!

Responsibilities:

- â— Design and implement computer vision algorithms to solve problems like image segmentation, image enhancement, and image classification.
- â— Developing and implementing state-of-the-art computer vision algorithms for object detection, classification, segmentation, etc.
- â— Translating business requirements into quick prototypes and working with the R&D, Sales and Marketing teams directly to uncover operational objectives and advance data collection.
- â— Researching, designing, implementing, and deploying full-stack scalable computer vision, deep learning, and machine learning solutions to novel and R&D problems.
- â— Staying up-to-date with the state-of-the-art in computer vision and deep learning, including edge computing.

Mandatory Skills

- â— Excellent problem solving skills using algorithms and data structures
- â— Exemplary verbal and written communication skills
- â— High ability to design and Architecture of highly scalable image processing systems
- â— Expertise in Image processing using OpenCV using C++/Python
- â— Proficient with machine learning and advanced deep learning concepts
- â— Experience in client server architecture using gRPC
- â— Finesse in leading teams to drive high productivity
- â— Ability to work under pressure while managing competing demands and tight deadlines
