Description :

TCS has been making continuous efforts to promote interaction with researchers in academic institutions around the world. We invite graduate / post-graduate / doctoral students as part of the *TCS Internship* programmed to take up challenging assignments and gain an understanding of industrial research.

TCS innovation labs conduct applied research in diverse areas like Software engineering, Process engineering, Systems research, Software models, Cybernetics, Computational Biology, Embedded systems, Security, Automotive engineering, Multi-media & Entertainment, Natural Language and Wireless systems. Researchers try to solve real world problems related to our customer businesses; we believe that this will complement your academic approach to research. You will also have a good chance to interact with some of the best minds industrial research and understand new research directions
