Rubrik
Software Development
Software Engineer

ABOUT RUBRIK

Rubrik is one of the fastest growing companies in Silicon Valley, revolutionizing data protection and management in the emerging multi-cloud world. We are the leader in cloud data management, delivering a single platform to manage and protect data in the cloud, at the edge, and on-premises. Enterprises choose Rubrik to simplify backup and recovery, accelerate cloud adoption, enable automation at scale, and secure against cyberthreats. Rubrik has raised over \$553 million in venture funding, most recently at a valuation of \$3.3 billion. We’ve been recognized as a Forbes Cloud 100 Company two years in a row and as a LinkedIn Top 10 startup.

ABOUT THE JOB

Description : **Rubrik Software Engineers are self-starters, driven, and can manage themselves. We believe in giving engineers responsibility, not tasks. Our goal is to motivate and challenge people to do their best work. To do that, we have a very fluid structure and give people flexibility to work on projects that they enjoy the most. This develops more capable engineers, and keeps everyone engaged and happy.**

Rubrik believes innovation starts with each Software Engineer. We encourage each engineer to try out new ideas. A lot of such ideas have become our products. All ideas, whether they are coming from newly graduated students or seasoned engineers, are all respected and valued the same way.

MINIMUM QUALIFICATION

- **Bachelor’s and/or Master’s degree**
- **Demonstrated knowledge of Computer Science fundamentals**
- **Programming experience using Java/C++/Python/Golang**
- **Strong background in programming and OS fundamentals**
- **Experienced in Distributed Systems, Scalability etc**
