Intern - Software Developer

Role Summary: Software Developer - Intern

Duration- 2-6 months

A Software Developer at iRage apart from being passionate about coding should be a rock-star programmer who is driven to stay ahead in the competition and loves to work in a fast-paced environment. Apart from building new strategies, you will be involved in improving the efficiency of deployed strategies, as well as enhancing trading tools and trading platforms.

Description :

What we need you to have:-

- Understanding of multi-threaded programming.
- Network and socket programming knowledge.
- Experience with inter process communication.
- Ability to work as an individual contributor as well as a team player.

Required Skillset

- Strong C++ skills with a good experience of C++11 and C++14.
- Adept problem-solving skills, data-structures and algorithms.
- Strong understanding of computer architecture and multi-core architecture.
- Comfortable with working on Linux.
- Understanding of networks and network programming.
- Good knowledge in scripting language like Python.
