A.P.T Portfolio, a high frequency trading firm that specialises in Quantitative Trading & Investment Strategies.Founded in November 2009, it has been a major liquidity provider in global Stock markets. Seeking a Software Developer to join our Engineering team.

Your responsibilities shall include:

- Description :
  - Carrying out quantitative research with the view of building new predictors, modelling techniques and trading strategies. All of our effort needs to be quantitatively inclined and measurable
  - Expanding our current set of trading ideas into new markets and portfolios as we increase our market footprint.
  - Experimenting with our current set of trading ideas to improve them.
  - Work collaboratively within the core group and help in further development of the Quant Platform.
  - Adapt trading ideas and strategies to evolving market conditions over time.
  - Taking a leadership role to drive new Quant trading ideas, once you grow in the core team
