YOU ARE READY TO MAKE AN IMPACT

As a member of Oracle's Financial Services Product Development organization, you'll work in a multidisciplinary team to develop and deliver leading edge SaaS solutions for the global marketplace. You'll be working on our next generation cloud-native platform currently under development.

Our Development approach is based on a DevOps-centric mindset, combining software development with operations expertise to shorten the development life cycle while delivering features, fixes, and updates frequently, in close alignment with business objectives.

We employ Agile methodologies, lean development practices, design thinking and we encourage and foster an open, collaborative workplace.

YOU ARE SETTING STANDARDS

As a Cloud Software Developer, you will work alongside senior developers to develop and deliver one or more functional or non-functional domains comprising our next generation cloud native Financial Services solution. In this capacity you exhibit the following qualities:

- Description :**
- Self-Starter.** You are motivated and ambitious and you require a minimum of oversight.
 - Quick Learner.** You listen, learn and apply what the senior developers are teaching you.
 - Problem Solver.** You focus on problem solving and your can-do attitude accelerates our work and brings our solutions alive.
 - Efficient.** You perform your work in a well-organized and competent way with minimum wasted effort or expense.
 - Aligned.** You are aligned to the goals and objectives of the organization, the organization's development agenda and the management team's priorities, doing your part in a flexible and proactive way to achieve the overall mission.

YOU ARE SKILLED

- **Software Coding using Java-based technologies**
- **Web Services and APIs using the latest technologies**
- **Continuous integration for real-time testing and diagnostics**
- **Reacting to work assigned to you.**
