Software Engineer Product Intern

Job Profile

Job Title: Software Engineer Product Intern

Job Type: Internship

Company Name: Newzera

Company Location: Indore, MP

Compensation: Best in the industry

Industry: Engineering, Computer Software, Information Technology

Functional Area: Software Engineering

Minimum qualifications

- Bachelors of technology or equivalent: All non-CSE Branches with CGPA 8.0 and above
- Software development experience in one or more general purpose programming languages
- Experience in working with front end technologies and/or front end frameworks
- Background in computer science related fields, with a focus on data structures, algorithms, and API design
- Experience in working with two or more from the following: web application development, Unix/Linux environments, mobile application development, distributed and parallel systems, machine learning, information retrieval, natural language processing, networking, developing large software systems, and/or security software development
- Experience with one or more general purpose programming languages including but not limited to: Java, C/C++, C#, Objective C, Python, JavaScript, or Go
- Interest and ability to learn other coding languages as needed

Preferred qualifications

- A solid foundation in computer science, with strong competencies in data structures, algorithms, and software design
- Experience with mobile app development technologies like React Native, Swift, Kotlin etc
- Experience developing accessible technologies

Tech Stack

Tech needs in our fast pace startup are always ever-changing and we select the best tech for the required job. To give an idea, they are as follows:

- Description :**
- Mobile stack: React Native, Node.js, Java script, HTML, CSS
 - Backend stack: C++, Java, Python
 - Database: DynamoDB, Hive, AuroraDB
 - Relevant frameworks: Tensorflow, Scikit , Map Reduce
 - Infrastructure: AWS

About the Job Role

Interns are Franklin, right before he discovered electricity. Had the brains, only needed the right moment when the lightning would strike!

This is that lightning moment for those who are looking to widen their scope, expand their knowledge and gain first-hand experience of working with the best. If you're the misunderstood geek and relatives call you before buying any machinery, we

feel for you!

But if you are passionate about solving real world problems, inventing new things and using your tech skills to build scalable, fault-tolerant and intelligent systems, we want you!

Responsibilities

- Design, develop, test, deploy, maintain and improve applications
- Manage individual project priorities, deadlines and deliverables
- Work with development teams and product managers to ideate software solutions
- Design client-side and server-side architecture
- Build the front-end of applications through appealing visual design
- Create fast and functional and intuitive user interfaces
- Translate designs and wireframes into high-quality code
- Manage individual project priorities, deadlines and deliverables
- Participate in code reviews
- Write technical documentation

On-site Benefits worth INR 20000 (per month)

- No need to get 'dabbas' from home. We've got it covered with delicious 5 star catered breakfast, lunch and dinner for you, everyday!
- A fully stocked pantry! You can go on munching till your mouth hurts
- An adorably neat and fully air-conditioned boutique office, you would hate to leave
- Shiny new Macbooks, screen setup, headphones, etc. for better work productivity
- Opportunity to work with the best talents from all over the world
- Fun working environment
- Sponsored educational programs for self development
- Support for paid online learning programs
- Quarterly excursions and off-sites as a part of team building exercises
- We'd hate to see you unwell, but if you do, we've got your back. Paid sick Leaves
- There are multiple posture related problems that occur in our field of work. While we can't have Phoebe on board with her masseuse skills, we do have all the right gadgets and a physiotherapist just a call away, to relieve you from any kind of pain. Except the heart-ache. We have good coffee to help you cope with that!
