Intern - Quantitative Research & Trading  
Mumbai

AlphaGrep Securities Private Limited is a proprietary trading firm focused on algorithmic trading in asset classes across the globe. We have offices in Mumbai, Bangalore, Gurgaon, Singapore and London

We are one of the largest firms by trading volume on Indian exchanges, and have significant market share on several large global exchanges as well.

We use a disciplined and systematic quantitative approach to identify factors that consistently generate alpha. These factors are then coupled with our proprietary ultra low latency trading systems and robust risk management to develop trading strategies across asset classes (equities, commodities, currencies, fixed income) that trade on global exchanges.

RESPONSIBILITIES:

AlphaGrep Securities seeks a Quantitative Research & Trading intern, who will be part of trading group which executes algorithmic strategies based on market behavior. We cover the global markets by leveraging and integrating technology, risk management and quantitative research. Being a proprietary trading business, we trade our own accounts and have no investors, clients or customers.

- Description :
  - Designing, implementing, and deploying high-frequency trading algorithms
  - Exploring trading ideas by analyzing market data and market microstructure for patterns
  - Creating tools to analyze data for patterns
  - Contributing to libraries of analytical computations to support market data analysis and trading
  - Developing, augmenting, and calibrating exchange simulators

QUALIFICATIONS:

- Familiarity with machine learning (a plus)
- Experience with data analysis, market research and data modeling (a plus)
- Brilliant problem-solving abilities
- Software development experience as demonstrated through course work, research projects, or open source activities, preferably in C++, Python or R/Matlab
- A passion for new technologies and ideas
- The ability to manage multiple tasks in a fast-paced environment
- Strong communication skills
- A working knowledge of Linux/Unix

Financial experience is not required but interest in financial markets is a plus.
